

STEPS INVOLVED IN THE PROCESS OF STUDY IN THE UK

INITIAL CONSULTATION – CHOOSE WHERE YOU WISH TO STUDY

Sharper Labs Academy Team is here to help you reduce the burden of an exhausting process of investigating your courses, universities, research opportunities, and employment projections. We provide a review of your academic and extracurricular profile, tailored guidance to select your university pathways and achieve your goals. Make an appointment with our professionally certified Consultants, along with your wish list and career choices. Allocated consultant will go through every aspect and help you to choose your future university and courses.

STEP 1:

A non-refundable payment of 15 GBP will activate your initial consultation, which will be conducted by one of our senior consultants. After you register with us, you will go through an in-depth consultation with our expert who will chat through the pre-admission checks of your potential study plan including your language skills.

Pay 15.00 GBP (Non- Refundable) and set up an appointment!!

STEP 2:

If you are found eligible, you will receive a confirmation email with further steps including the complete details of universities applicable. In case you are not found to be eligible, we help you sign up to an intensive English language training and IELTS coaching to strengthen your skills. To proceed further, you would be required to sign an agreement with us and pay a refundable deposit for document preparation and visa processing.

Pay 50.00 GBP (Refundable deposit) and progress your application!

STEP 3:

Once you have discussed and finalised your subject and the university to study, we will take you through the document preparation process. The consultant will be in direct contact with your desired university to speed up and smoothen the entire application process. Our team follows strict legal and ethical guidelines in our service. Your allocated consultant will work with you to get all the necessary documents ready for your application. Prior to submission, we will check your SOP (statement of purpose), CV, reference letters, and application forms

STEP 4:

Once your allocated consultant has processed your application, the central admission team of the university will assess it within a few weeks and notify you with an update. Once your application is successful, the university will send you an offer letter and an acceptance form. After receiving the offer letter and acceptance from the university, our Academy consultant will take you through all the terms and conditions that have been explained. We will guide you in the decision-making process to choose the best option for your future career.

STEP 5:

Here is all you need to know about Visa. After accepting the offer letter from the university, the next important task is the visa application process. The Academy team will help in arranging required visa documents that need to be filled according to the standards of the UK Immigration requirements. Sharper Labs Academy and the consultants are up to date with the Visa process and regulations, and will scrutinize all the necessary details. Our Academy professionals will assist you with the remaining process of visa interview guidance and will help you with mock visa interview sessions.

Get a consultation with Sharper Labs Academy consultant for your hassle-free visa
